### **PURPOSE**

Americans are a deeply divided people. The purpose of this course is to help interested Columbia Business School students gain a better understanding of the causes and consequences of the American divide—and what they might do to help bridge it.

### **SCHEDULE**

There will be (7) three-hour classroom sessions in Uris 332 on Tuesdays from 2:15pm - 5:30pm (**Sept 10 / Sept 17 / Sept 24 / Oct 1 / Oct 8 / Oct 29 / Nov 12**) and a **four-day field trip to Youngstown, Ohio or Decatur, Alabama from 1 - 5 November 2019.**

The four-day visit to Youngstown, Ohio or Decatur, Alabama, will engage students in a variety of learning activities. These will include social settings as well as meetings with individuals associated with organizations whose fortunes have been changed by economic conditions and/or industrialization—e.g. manufacturers, unions, local government, innovation centers, and nonprofit service-providers. In addition, students will write a Final paper, not to exceed 10 pages in length..

### **REQUIREMENTS**

Students are expected to be prepared for and participate thoughtfully in all aspects of the course, including the seven class sessions at CBS and site visits in Youngstown or Decatur. **Attendance is required for each class, and missed classes are heavily frowned upon, and participation points deducted accordingly (an additional assignment may also be required).** If there are extenuating and excusing circumstances, this must be shared in writing prior to class with your Professor and TA.

We will also use “YellowDig” (described below), an interactive online platform allowing us to continue to discuss and deepen our knowledge between classes.
- 2. **Final Paper** (50%): 1250 words due on **Monday, Nov 18, 2019, 11pm**. Choose one of the following based on your trip, the course, and any additional readings if appropriate:

# Yellow Dig

YellowDig is an interactive online platform which allows us to continue learning and conversing “off line” from our class meetings. Its purpose is to provide commentary, relevant articles, videos, debates, etc. beyond what we have time to do in class.

Your ticket to admission to the website is to CONTRIBUTE-- an article, a blog, an update, a link, a stimulating question, a stimulating response. These will be in the form of a POST, a COMMENT, and LIKES. We would expect that each student can add value in some way, and in so doing, gain a tremendous amount from others who are adding value. The more you give, the more you will gain! **We would hope to see at least 2 contributions per student and at least 2 “comments” on other’s contributions, as well as “likes”. There is a scoring system where you are expected to reach 100 points minimum.**

## **Here’s what to do:**

- a) **Give your contribution a title which will inform and entice the reader**
- b) **Provide an intro paragraph to what the article or commentary is all about, and what interesting issue or question it addresses.**

You will access YellowDig by clicking the tab on the left-hand side of the Canvas course. Do NOT access through Web as you will not be in Class list that way—ONLY USE CANVAS. Please add your PHOTO to your registration on Canvas.

YellowDig will function as a component of your Class Participation score. Each student will be expected to make *at least* two “Pins” and two “Comments” over the course of the semester, and you will see that is roughly 100 points....

**Note:** *A pin requires an introductory paragraph—of at least 25 words, explaining the nature and importance of your contribution. At least 25 words is required per **Pin** or **Comment** to receive points.*

### Contributions Earn Points

- ★ Creating a new **Pin** with a minimum of **25** words earns **30** points.
- ★ Adding a new **Comment** with a minimum of **25** words earns **15** points.
- ★ **Upvoting** a Comment or Pin (Like or Love) earns author **1** points.
- ★ Receiving an **Instructor Badge** earns **10** points.

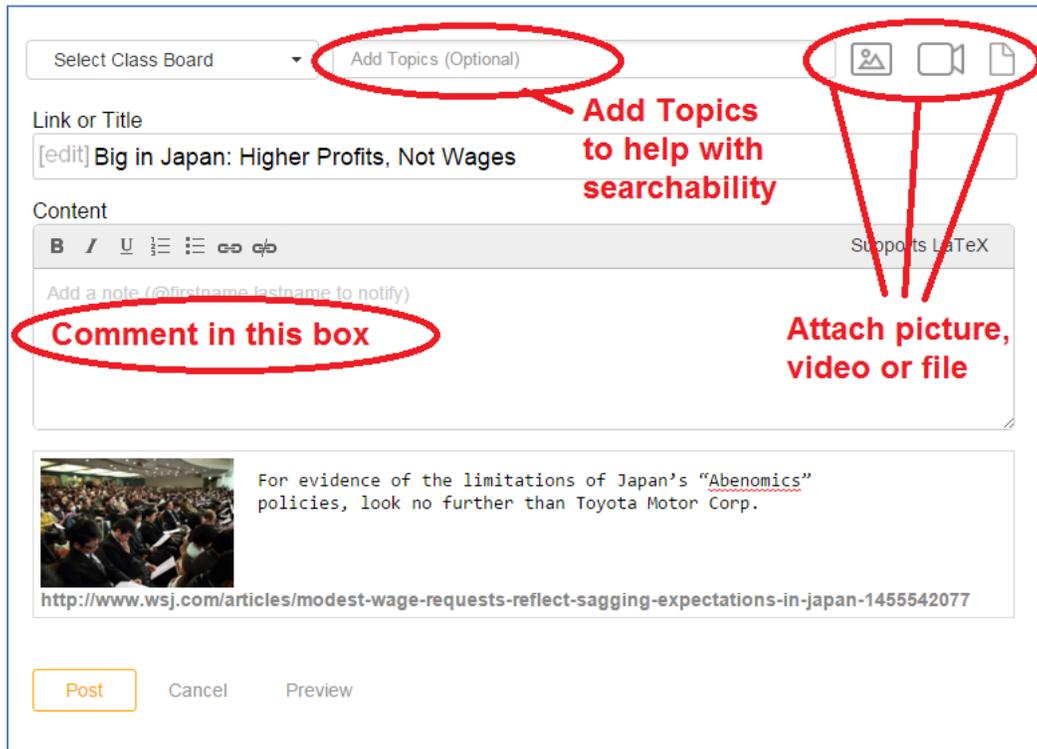

**An Important Tip:** Be careful when linking to sites or articles that require logins! Make sure to make use of the “Preview” feature to make sure YellowDig can display your Pin effectively. Articles from websites like the New York Times, Wall Street Journal, the Financial Times, etc., will require logins- submitting these traditionally may create a barrier for your classmates. Instead, you should make a PDF of the article you wish to share, which you can attach to your Pin.

## **How To Begin: Make a Pin!**

1. First, press the pin button at the top left.

1. Then, copy and paste the link and an image and short summary of the article should appear.
2. Write down your thoughts on the article (where appropriate add pictures, videos, or documents, and tag information) and press post.

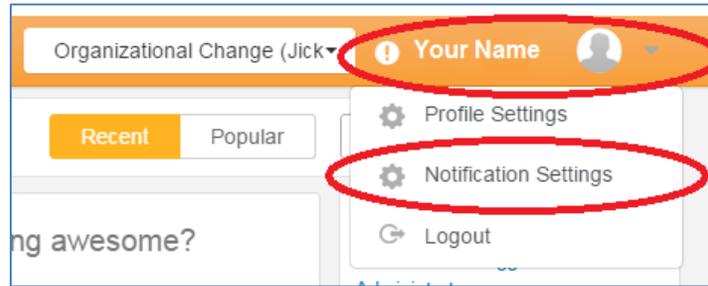

You can also tag people in your post by typing @their name in your pin.

*You may be using YellowDig in other courses. You will be able to cycle through your course "boards" using the dropdown at the top of the page:*

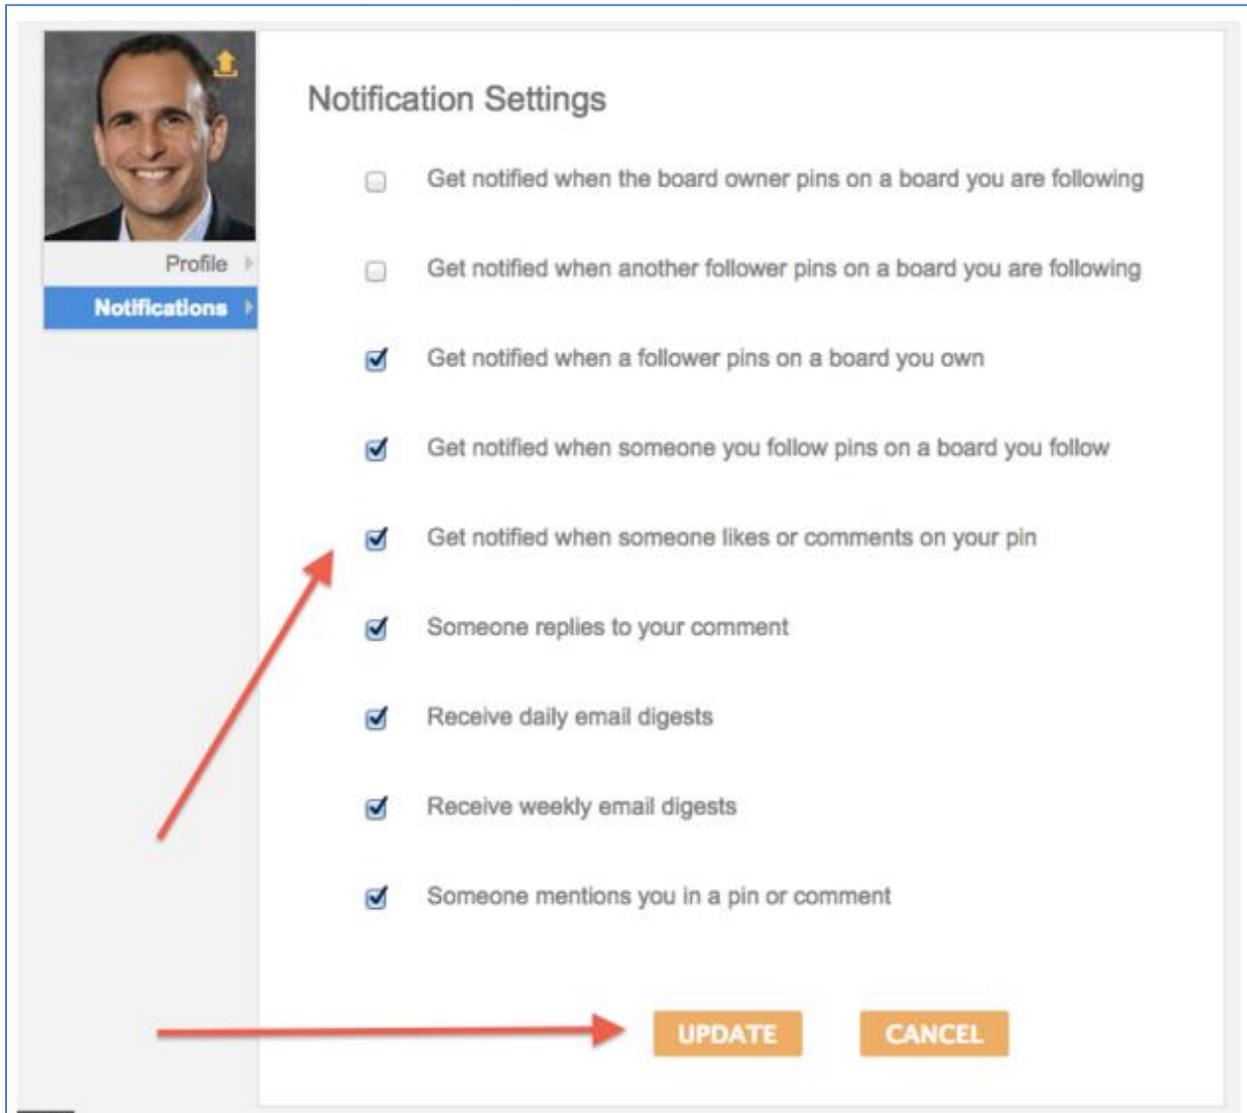

YellowDig will send you e-mail notifications, based on your Notifications Settings. Note: These are independent of your CANVAS Notifications Preferences.

You can adjust your YellowDig Notifications Preferences by first your name and dropdown menu from the upper-right:

Then, choose the items when you want to get notified, and click UPDATE:
